ANALYST PROGRAMMER

BANK AUSTRIA

Vienna, Austria
2018 - now

Knowledge Transfer and Taking-over Maintenance of Trade Finance Application. Incident management Level-2 support. Maintenance of Trade Finance application in linux environment (Oracle), and PL1/Cobol CICS JCL Batch DB2(SQL) in Host Environment.
Changes Project on Applications under new implementations.

ANALYST PROGRAMMER

UNICREDIT ITALIA

Consulting Technology
Outsourcing
Milan, Italy
2017-2018

Developing NSS Application:
New Reporting Non-performing" aims to produce an information set to carry out the reports requested by the supervisory bodies, supplementary for subject classified as non-performing.

ANALYST PROGRAMMER

BANK AUSTRIA

Vienna, Austria
2017

Knowledge Transfer and Taking-over Maintenance of Trade Finance Application. Incident management Level-2 support. Maintenance of Trade Finance application in linux environment (Oracle), and PL1/Cobol CICS JCL Batch DB2(SQL) in Host Environment.
Changes Project on Applications under new implementations.

ANALYST PROGRAMMER

ACCENTURE MILANO

Top-ranking global consulting firm, staffing more than 500,000 personnel worldwide.
Milan, Italy
2016

Managed the implementation of the LIFE insurance application for a mid-level Italian insurance provider, as a key member of a team of 200 personnel collaborating with client teams on development and deployment.
Experience in module and interface design and development. Organized pre-release software testing.
Selected Achievements:
Reevaluated the existing business analysis and restructured it from scratch to provide clearer information.

ANALYST PROGRAMMER

CARIGE ASSICURAZIONI MILANO

Milan, Italy
2015-2016

Managed the implementation of insurance application, as a key member of a team of 20 personnel collaborating with client teams on development and deployment.
Organized pre-release software testing. Created a user-friendly front end by designing or Created a user-friendly web based (java) front end via a channel area and store procedure
AM on daily network, find and fix any ticket or issue, and restart the net as soon as possible.

ANALYST PROGRAMMER

ALLIANZ MILANO

Top-ranking global consulting firm, staffing more than 500,000 personnel worldwide.
Milan, Italy
2014-2015

Managed the implementation of the NVI insurance application, as a key member of a team of 30 personnel collaborating with client teams on development and deployment.
Organized pre-release software testing.
AM on daily network, find and fix any ticket or issue, and restart the net as soon as possible.

RUGGERO LACERENZA

ANALYST PROGRAMMER

MAJORS GROUP

Sydney, Australia
2013-2014

Develop of Apps template and Network management in Sydney office.

ANALYST PROGRAMMER

ACCENTURE MILANO

Top-ranking global consulting firm, staffing more than 500,000 personnel worldwide.
Milan, Italy
2012-2013

Managed the implementation of the LIFE insurance application for a mid-level Italian insurance provider, as a key member of a team of 200 personnel collaborating with client teams on development and deployment.

Experience in module and interface design and development.

Organized pre-release software testing.

Selected Achievements:

Reevaluated the existing business analysis and restructured it from scratch to provide clearer information.

ANALYST PROGRAMMER

AVIVA ITALIA MILANO

Italian insurance experts providing numerous insurance products to consumers.
Staffs 200 personnel.
Milan, Italy
2010-2012

Liaised with a team of 30 personnel to provide module and interface programming for the launching of the LIFE insurance application. Conducted unit and user testing.

Selected Achievements:

Facilitated software testing by developing a suite of testing tools for the production system.

ANALYST PROGRAMMER

INTESA SANPAOLO

Banking services corporation, staffing over 4,000 employees.
Milan, Italy
2006-2010

Performed application and data conversions from a PCR SAS environment to a z/OS Cobol CICS DB2 environment. **Coordinated new program development, testing and tuning, and implementation in DB2 environment, including ensuring integration with existing systems.**

Selected Achievements:

Recognized with numerous commendations from the bank for delivering the new software implementation ahead of schedule and with zero errors affecting the more than 1500 procedures involved.

ANALYST PROGRAMMER

ASSIMOCO

Insurance provider with a wide portfolio of products and services. Employs 400.
Milan, Italy
2006

Oversaw design, development, and deployment of the new "Portafoglio Vita" system based in a Cobol CICS DB2 environment. Conducted application testing and debugging. Created a user-friendly front end by designing or Created a user-friendly web based front end via a customized XML interface.

Coordinated new program development, testing, and implementation in DB2 environment, including ensuring integration with existing systems.

Selected Achievements:

Enabled linkage between the client and the mainframe by building the framework for an XML interface.

RUGGERO
LACERENZA

PREVIOUS ROLES (before 2006)

ANALYST PROGRAMMER

INTESASANPAOLO

(2004-2006)

Built new programs for electronic trust management in a Cobol CICS DB2 environment. Enabled release of loan and trust fund authorizations within a day by deploying a new system linking diverse bank data providers.

Coordinated new program development, testing, and implementation in DB2 environment, including ensuring integration with existing systems.

ANALYST PROGRAMMER

PUBLITALIA 80

(2003)

Supported conversion from a Cobol CICS DB2 environment to a UNIX Oracle environment by creating test programs and interfaces. Successfully converted and tested programs migrating from MVS to UNIX.

ANALYST PROGRAMMER

INTESA VITA & BNL VITA

(2002-2003)

Coordinated program development and maintenance for the LIFE system operating in a Cobol CICS DB2 environment. Adapted programs from VSAM to DB2 databases, addressing and resolving data mapping errors as needed.

ANALYST PROGRAMMER

RAS TRAMITE / CAP GEMINI

(2001-2002)

Facilitated migration of the Allianz portfolio to RAS systems by analyzing and programming necessary transfer software. Created programs capable of extracting data on policies, collections, banking, payments, and more and importing into the Allianz Subalpina system.

ANALYST PROGRAMMER

UBS

(2001)

Linked mainframe Cobol CICS DB2 databases for the new securities department with the web bank application in the Unix environment by building interfaces.

ANALYST PROGRAMMER

BCC

(2000)

Oversaw migration of numerous branch operations to the mainframe environment by building interfaces between legacy and new systems.

ANALYST PROGRAMMER

VARIOUS COMPANIES

(1999)

Provided programming, database administration, and support services for numerous companies, including Il Sole 24 Ore, Medusa Film, SBB, and Italcementi. Conducted conversions from legacy to upgraded systems through creation of conversion programs for numerous environments. Maintained existing programs. Handled a special Y2K conversion and adaptation project.

RUGGERO
LACERENZA

ANALYST PROGRAMMER

DEUTSCHE BANK

(1998)

Primary point of liaison linking English-speaking teams with Italian users and German analysts to address and resolve issues with systems supporting securities management, stock market tracking, and regulatory reporting.

ANALYST PROGRAMMER

TELECOMITALIA

(1997)

Coordinated program development and maintenance in COBOL CICS DB2 environment.

ANALYST PROGRAMMER

BANCA COMMERCIALE ITALIANA

(1993-1997)

Linked mainframe Cobol CICS DB2 databases for the new securities department with the web bank application message management "MERVA" and "PUMA" on securities called "RIE", building a bridge between the client environment (HPS OS2 PC), building function that provide a bridge between the host environment CICS, DB2 Cobol to NETVIEW MVS.

ANALYST PROGRAMMER

RCS RIZZOLI

(1992-1993)

Maintenance programs in VM IMS COBOL DB2 environment and conversion for Cobol CICS DB2 environment

PROGRAMMER

ISEFI INFORMATICA

(1990-1992)

Developing programs targeted for Leasing Factoring: in PB Environment Microfocus Cobol Client using C as programming languages and MVS CICS DB2 environment.

PROGRAMMER

SAIA SRL

(1987-1990)

Development program management accounting billing orders and inventory tax. In addition, development management program "Loculi" for I store paper banks. Concurrent DOS systems, mini DIGITAL TSX RSX VMS Operating system and programming language DIBOL, DBL. In addition to the development of the packages also provide installation, education and care for the customer.
